

Health Hazard

- Carcinogenicity
- Mutagenicity
- Respiratory sensitization
- Reproductive toxicity
- Target organ toxicity
- Aspiration toxicity

Flammable

- Flammables
- Pyrophorics
- Organic peroxides
- Self-heating substances
- Self-reactive substances
- Emit flammable gases

Harmful

- Irritation (skin and eye)
- Skin sensitization
- Respiratory tract irritation
- Acute toxicity (harmful)
- Narcotic effects
- Ozone layer damage

Toxic

- Acute toxicity (oral, dermal, inhalation)

Corrosive

- Skin corrosion/burns
- Eye damage
- Corrosive to metals

Explosive

- Explosives
- Self-reactive substances
- Organic peroxides

Oxidizing

- Oxidizers

Environmental Hazard

- Aquatic toxicity

Compressed Gas

- Gases under pressure
